ALLIES' AVIATORS SEEK TO GET EVEN BY MAGAZINE ATTACK.

### FOUR RAIDS IN LAST TWO DAYS

Zeppelins Attack Three More Cities After Taube Makes Daring Flight Within 30 Miles of English Capital.

London, England.—Ten persons were killed or wounded when a German taube dropped several bombs on the cathedral at Amiens, France. The damage to the structure was immaterial.

Two civilians were killed and one was injured in Rotterdam, Wurttemberg, by bombs dropped from a French biplane which attempted to destroy the powder magazine.

Other allied aviators hurled bombs on Leopoldshoehe and Malszereles Metz, 16 miles north of the German fortress of Metz.

Six of the bombs struck the powder magazine at Rotterdam and a huge red flame shot up, surrounded by dense smoke. Anti-aircraft guns opened fire on the machine, but the airman escaped unharmed.

**Fourth Zeppelin Raid Made.** Reports received say that German aircraft, probably Zeppelins, have appeared over Ipswich and Felixstowe, in Suffolk, and Colchester, in Essex.

Several bombs were dropped in the neighborhood of Colchester. The extent of the damage has not yet been ascertained.

The government has issued warnings for the entire coast and the mouth of the River Stour.

### BILLY SUNDAY MAY LEAVE US

Evangelist Says British "Booze Devil" Needs Whacking and He'd Like to Do It.

Paterson, N. J.—The "thrill" that Billy Sunday got from Sir Henry Randall's cablegram asking him to come to England and lead the fight for prohibition is causing him to change his mind about sending Sir Henry his regrets, as he first said he would do.

Sunday indicated that he was considering the possibility of helping out King George, Lloyd-George and Kitchener in their stand for temperance.

"I am doing some praying," he said, "and there is just a chance that I might go for a short time between campaigns in this country, after I finish in Paterson. But I wouldn't take a cent or sou of their money, except to pay expenses. I'm anxious to take a whack at the booze devil wherever his head is up, and they certainly need somebody over there. I would go if I were sure I could do good."

### TELEPHONE INQUIRY DROPPED

Interstate Commerce Commission Says Cause for Complaints Have Been Adjusted.

Washington, D. C.—The interstate commerce commission announced discontinuance of its investigation into the rates and practices of the telephone and telegraph companies.

The investigation, carried on intermittently for several years, was begun on the commission's initiative. Many specific complaints laid before the commission have been settled and the understanding between the American Telephone & Telegraph Co. and the department of justice last year was said to have made further investigation unnecessary.

**Expenses More Than Receipts.** Panama.—Since the opening of the Panama Canal, the expenditures have been approximately 10 per cent in excess of the revenue, due to the high cost of maintenance and operation of the waterway. ## CHINA MAY MAKE APPEAL

JAPANESE DEMANDS AROUSE MUCH OPPOSITION.

Powers May Insist on Modification of Political and Military Requests.

Peking, China.—No specified progress was recorded at the conference between the Chinese foreign minister, Lu Cheng-Hsiang, and the Japanese minister, Eki Hiki, over the Japanese demands.

Owing to Chinese insistence, Eastern Mongolia and South Manchuria were not discussed. The Japanese minister contended that these two should be discussed on the same basis, but Lu Cheng-Hsiang argued that Japan has no such claim in Eastern Mongolia as in South Manchuria. He said further that China was willing to open treaty ports and otherwise place all foreign nations in a favorable position relative to trading.

It is understood that China will communicate with the powers if Japan insists on retaining group five. The Tien Tsin-Peking branch of the American Association which includes virtually all the American business men of these two cities, recently called the attention of Secretary Bryan through the American minister, Paul S. Reinsch, to what was termed "the serious nature of the Japanese demands" and asking the American government to take measures to protect American interests.

The appeal recently called direct to President Wilson was signed by seven prominent American missionaries. The whole missionary body numbers several hundred, but the great majority of them have not seen the document. Some of those who were requested to sign it refused.

### STORAGE BILL EATS UP VALUE

New York Man Kept Goods in a Warehouse for 27 Years in Memory of His Wife.

New York.—Household goods that went into storage 27 years ago upon the death of the woman for whose home they had been bought were sold at auction.

The husband quit housekeeping up on the death of his wife, but he refused to sell the things she had liked, and had them carefully packed and stored. He died recently. In looking over his papers his heirs found he had paid \$15,000 for storage. They rushed the things out of the warehouse but the sale only brought \$1,118.

The furnishings were such as couples in moderate circumstances bought for housekeeping about 1870.

**State-Wide Dry Measure Fails.** Lansing, Mich.—Amended so drastically that even its author voted against it, the straight state-wide prohibition bill was killed by the Michigan senate. The vote was 29 to 2. Defeat of the bill will mean the immediate launching of a campaign to have the question submitted to the voters by means of the initiative, so said Senator Straight, the leader of the dry forces in the legislature.

**Attempt Made to Wreck Train.** Vincennes, Ind.—Railroad detectives are scouring the woods three miles north of here for supposed train wreckers, who attempted to wreck the north-bound Dixie limited on the Chicago & Eastern Illinois railway. ## NELSON W. ALDRICH DEAD

SUCCUMBS TO APOPLEXY AT AGE OF 74.

Statesman Served in U. S. Senate for 24 Years and Was High in Party Councils.

New York.—Ex-Senator Nelson W. Aldrich of Rhode Island died suddenly at his home here at the age of 74 years.

Aldrich had been in failing health for several years and had taken several ocean voyages in the hope of regaining his health. This attempt failed, but it was believed when he returned from his last sea trip that he had been considerably benefited.

Aldrich's death followed a stroke of apoplexy.

He was born in Foster, R. I. on November 6, 1841. His mind turned toward politics and immediately after he finished his education he became active in public affairs. He was a member of the common council of Providence from 1869 to 1871 and again from 1872 to 1875.

In 1881 Aldrich was elected to the United States senate to succeed General A. E. Burnside, who died during his term of office. Aldrich was re-elected to the senate in 1886, 1892, 1898 and 1904.

Staunchness marked Aldrich's adherence to the principles of the Republican party, of which he was a life-long member. He was one of the "old guard" of the Republican party in congress, and was a power in the national councils of his party.

### FRANCE WORKS PRISONERS

Some Are Put to Laboring in Mines and Some Are Used in Railway Construction.

Paris.—France is making a reasonable use of her war prisoners in keeping up the necessary manual labor of the nation.

For the time being, at least, the sending of the prisoners to Algeria and Morocco, where thousands have been employed almost from the first days of the war, has been abandoned. They now are being utilized nearer home.

In Corsica about 3,000 now are being worked in the mines. In the agricultural districts of France about 450 are being worked at Puy-de-Dome; about 1,050 in Brittany, while another lot is used in railway construction along the north coast. Large contingents are being utilized in other public works in the Champagne, Creuse, Ardèche and Hérault.

According to the police, Riddle, who formerly was a corporal in the United States army, confessed shortly after his arrest. An examination of the girl's body, the police say, revealed that she was about to become a mother.

## FILE PRIVATE SUITS

Shippers Begin Action Against Railroads to Recover Overcharges on Freight.

TOTAL CLAIM IS \$1,500,000

Kansas City Lawyer Acts for Pool of 5,000 Firms—Fear Statute of Limitations.

The first private suits against railroads for overcharges, pending litigation concerning the lowering of freight rates in Missouri, were filed recently in the circuit court at Kansas City. Heretofore the attorney general has filed such suits.

The suits were filed by Henry L. McCune. They were the first of a total of \$1,500,000 in claims. These represent the claims of 5,000 shippers.

"The power of the attorney general to bring suits for private persons has been questioned," Mr. McCune said. "In no measure the statute of limitation may intervene. In Minnesota there was a similar law and similar trouble. Overcharge money was collected from railroads through the means we have started."

One suit filed was by the Farmers' Grain and Elevator Company against the Chicago, Rock Island & Pacific railway on 174 counts, totaling a claim of \$8,000. The other was by the Star Line Company against the Missouri, Kansas & Texas Railway Company for about \$5,000.

**DODGING TAXES EXPENSIVE**

Wealthy Carroll County Farmer Fined \$500 for Second Evasion of the State Law.

In a vehicle more precarious looking than the famous "horse shay" and depending largely on wire and binder twine for its stability, David Standley, owner of several hundred acres of rich Carroll county land, drove into Carrollton recently and, appearing before Frank P. Divilbiss, circuit judge, pleaded guilty to having \$43,000 in St. Louis trust companies, which he had failed to give in with his personal assessment. Judge Divilbiss fined him \$500, the largest amount he has yet imposed for tax dodging.

It was the second appearance on the same charge of Standley, whose personal appearance and old horse and buggy contrast with his wealth. Judge Divilbiss, who has been instrumental in uncovering eight million dollars' worth of untaxed wealth in Ray, Clay and Carroll counties, made the fine heavy on account of the repeated offenses.

In 1913 when Judge Divilbiss was starting his campaign against the tax dodgers, Standley gave him practically no personal property. He was indicted, charged with having evaded the payment of taxes by buying a draft for \$33,566.16 a few days before June 1, and having deposited it again after assessment time in local banks. On arraignment he confessed to having \$9,000 more in St. Louis, the proceeds of the sale of bonds of the Japanese government. At that time he was fined \$200 and costs.

Last June his personal assessment took another slump. He reported \$30 in money. The grand jury investigated his case again and summoned the cashiers of St. Louis banking firms. Standley was indicted again, this time the indictment charging the hiding of \$43,000 in St. Louis.

There are 1,000 bushels of seed corn in the car. It was donated free by Springfield business men, following appeals from a number of sections where the successive droughts of the few years have worked hardships upon the tenant farmers.

**New Rule Up in Springfield.** The city council has passed a bill calling for a vote in Springfield on commission government. The bill names Tuesday, June 8, as the date for the election. Supporters of commission government have made several efforts to get a vote on the proposition within the last few months, both by petition and bill, but this was the first time a majority of the council has acted favorably on it. The voters of the city have voted down commission government twice.

## U. S. TO BECOME FINANCIAL CENTER

READJUSTMENTS CAUSED BY WAR WILL MAKE ENGLAND LOSE PRESTIGE.

### OUR TRADE BALANCE GROWS

Government Expert Declares Nation Couldn't Escape Prosperity, Try It Ever So Hard—Not Yet Creditor Nation.

Washington.—The United States is now the mistress of the commercial and financial world, officials of the department of commerce declare. It is feeding and clothing Europe and furnishing great quantities of supplies for which the war has created a demand abroad.

In addition American bankers are lending millions of dollars to the warring nations and some neutrals upon gilt-edged security. The commanding position won in a few months in the markets of the world has started talk of henceforth the United States, instead of England, will be the banker of the nations and that this country, instead of either England or Germany, will rule international trade.

It was stated by a government expert that the United States couldn't escape prosperity if it should try. The balance of trade is now more than \$600,000,000 in favor of the United States. It is estimated this will increase to \$1,000,000,000 by June 30, the end of the fiscal year, and probably another half billion by the end of the calendar year.

Inasmuch as Europe holds, or did hold, at the beginning of the war, about \$6,000,000,000 of American securities, the United States is not yet a creditor nation. This stupendous credit movement in the last eight months, however, is unparalleled in the history of the world. The largest trade balance ever achieved by the United States hitherto, was nearly \$700,000,000 in 1913.
